2. ACCOUNTING SYSTEM AND ACCOUNTING POLICY

2.1. Accounting period and accounting currency

Annual accounting period commences from 01 January and ends as at 31 December.
The Company maintains its accounting records in Vietnam Dong (VND).

2.2. Standards and Applicable Accounting Policies

Applicable Accounting Policies

The Company applies the Corporate Accounting System promulgated under Circular No. 99/2025/TT-BTC dated 27 October 2025 issued by the Ministry of Finance.

Declaration of compliance with Accounting Standards and Accounting System

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. The Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

2.3. Basis for preparation of the Separate Financial Statements

The Separate Financial Statements are presented based on historical cost principle.

The Separate Financial Statements of the Company are prepared based on summarization of the financial statements of the independent accounting entities and the head office of the Company.

The Users of this Separate Financial Statements should study the Separate Financial Statements combined with the Consolidated Financial Statements of the Company and its subsidiaries for the fiscal period ended as at 30 June 2026 in order to gain enough information regarding the financial position, operating results and cash flows of the Company.

2.4. Accounting estimates

The preparation of Separate Financial Statements in conformity with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and legal regulations relating to financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent liabilities and assets at the date of the Separate Financial Statements and the reported amounts of revenues and expenses during the fiscal Period.

The estimates and assumptions that have a material impact in the Separate Financial Statements include:

- ▶ Provision for bad debts;
- ▶ Provision for devaluation of inventory;
- ▶ Provision for payables;
- ▶ Estimated allocation of prepaid expenses;
- ▶ Estimated useful life of fixed assets;
- ▶ Classification and provision of financial investments;
- ▶ Estimated income tax;
- ▶ Estimated construction cost.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are assessed by the Board of Management to be reasonable under the circumstances.

2.5. Cash and cash equivalents

Cash comprises cash on hand and demand deposits.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

2.6. Financial investments

Investments held to maturity comprise term bank deposits, bonds held to maturity with the intention of earning periodic interest and other held to maturity investments.

Investments in subsidiaries are initially recognized at original cost. After initial recognition, value of these investments is measured at original cost less provision for devaluation of investments.

Investments in other entities comprise investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

Provision for devaluation of investments is made at the end of the Period as follows:

- ▶ Investments in subsidiaries: provision shall be made based on the Financial Statements of subsidiaries at the provision date.
- ▶ Long-term investments (other than trading securities) without significant influence on the investee: If the investment in listed shares or the fair value of the investment is determined reliably, provisions shall be made on the basis of the market value of the shares; if the fair value of the investment is not determined at the reporting date, provision shall be made based on the Financial Statements at the provision date of the investee.
- ▶ Investments held to maturity: provision for doubtful debts shall be made based on the recovery capacity in accordance with statutory regulations.

2.7. Receivables

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company. The receivables shall be classified into short-term receivables or long-term receivables on the Separate Financial Statements according to their remaining terms at the reporting date.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing or estimating the possible losses.

2.8. Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

Net realizable value is estimated based on the selling price of the inventory minus the estimated costs for completing the products and the estimated costs needed for their consumption.

The cost of inventory is calculated using weighted average method. Inventory is recorded by perpetual.

The value of work in progress is recorded for each construction project which is incomplete or revenue is unrecognised, corresponding to the amount of work in progress at the end of the Period.

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

2.9. Fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets are recorded at cost, accumulated depreciation/amortization and carrying amount.

Subsequent measurement after initial recognition

If these costs augment future economic benefits obtained from the use of tangible fixed assets are extended to their initial standards conditions, these costs are capitalized as an incremental in their historical cost.

Other costs incurred after tangible fixed assets have been put into operation such as repair, maintenance and overhaul costs are recognized in the Separate Statement of Income in the period in which the costs are incurred.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

▶ Machinery, equipment	03 – 10 years
▶ Vehicles, Transportation equipment	04 – 08 years
▶ Office equipment and furniture	03 years
▶ Computer software	03 years

2.10. Business Cooperation Contract (BCC)

Business Cooperation Contract (BCC) is a contractual agreement between two or more parties to conduct an economic activity but without creating a separate legal entity. This activity may be jointly controlled or not jointly controlled by the contributing parties, or controlled by one of the parties to the contract.

In cases where cash or assets are received from other parties as contributions to the BCC, such amounts are accounted for as liabilities. In cases where cash or assets are contributed to the BCC, the accounting treatment shall be determined based on the terms and the substance of the BCC to establish whether there is joint control or non-joint control over the BCC.

According to the agreed terms in the BCCs, the profit sharing is implemented in the following forms:

Profit sharing based on a percentage or as agreed between the two parties;

Profit sharing based on a percentage of the share selling price.

2.11. Short-term prepaid expenses

Expenses incurred that are related to the business operation results of multiple financial years are recorded as prepaid expenses to be gradually amortized into the business results of subsequent financial years.

The calculation and allocation of long-term prepaid expenses into the operating costs of each financial year are based on the nature and extent of each type of expense to select an appropriate amortization method and criteria.

The Company's prepaid expenses include:

- Tools and supplies: These include assets held by the Company for use in its normal business operations, with an historical cost of each asset being less than VND 30 million, and therefore, not qualifying for recognition as fixed assets under current regulations. The cost of tools and supplies is amortized on a straight-line basis over a period ranging from 01 to 03 years;
- Other prepaid expenses: These are recognized at cost and amortized on a straight-line basis over their useful lives from 01 to 03 years.

2.12. Payables

The payables shall be recorded in details in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Company. The payables shall be classified into short-term payables or long-term payables on the Separate financial statements according to their remaining terms at the reporting date.

- ▶ The Company has a present debt obligation (legal obligation or joint obligation) as a result of past events;
- ▶ It is probable that the decrease in economic benefits may lead to the requirement for debt settlement;
- ▶ Debt obligation can be estimated reliably.

Value recorded as a provision for payables is the most reasonably estimated amount required to settle the current debt obligation at the end of the accounting Period.

Only expenses related to the previously recorded provision for payables shall be offset by that provision for payables.

Provision for warranty obligation of construction project is estimated from 2.5 % to 5 % on value of the project based on the specification of each project and evaluation made by the Board of Management on actual time for warranty.

2.17. Owner's equity

Owner's equity is stated at actually contributed capital of owners.

Share premium is recorded at the difference between the par value with costs directly attributable to the issuance of shares and issue price of shares (including the case of re-issuing treasury shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

Retained earnings are used to present the Company's operating results (profit, loss) after corporate income tax and profits appropriation or loss handling of the Company.

Dividends to be paid to shareholders are recognised as a payable in Statement of Financial position after the announcement of dividend payment from the Board of Directors and announcement of cut-off date for dividend payment Vietnam Securities Depository and Clearing Corporation.

2.18. Revenue

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured regardless of when payment is being made. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, and sales returns.

Revenue from construction contract

In the case of a construction contract that stipulates when the contractor is paid based on the value of the volume performed, the results of the construction contract performance can be estimated reliably and confirmed by the customer, revenue and costs related to the contract are recognized corresponding to the completed work confirmed by the customer on the invoice.

Contract performance increases and decreases, bonuses and other payments are only included in revenue when agreed with the customer.

When the outcome of a construction contract cannot be estimated reliably, revenue is recognised only to the extent of contract costs incurred whose recovery is reasonably certain. Contract costs are recognised as expenses in the Period in which they are incurred.

Revenue from real estate transfer

The revenue from real estate transfer is recognized when most of the risks and benefits associated with ownership of the property are transferred to the buyer.

Financial income

Financial incomes include income from assets yielding interest, dividends and other financial gains by the company shall be recognised when the two conditions are satisfied:

- ▶ It is probable that the economic benefits associated with the transaction will flow to the Company; and
- ▶ The amount of the revenue can be measured reliably.

2.19. Cost of goods sold and services rendered

Cost of goods sold and services rendered are cost of finished goods, merchandises, materials sold or services rendered during the year, and recorded on the basis of matching with revenue and on a prudence basis. Cases of loss of materials and goods exceeded the norm, labour cost and fixed manufacturing overheads not allocated to the value of inventory, provision for devaluation of inventory, abnormal expenses and losses of inventories after deducting the responsibility of collective and individuals concerned, etc. is recognized fully and promptly into cost of goods sold in the year even when products and goods have not been determined as sold.

The cost of construction contract is estimated based on the cost estimate of the Company's construction for each project.

2.20. Financial expenses

Items recorded into financial expenses comprise are borrowing costs recorded by the total amount arising in the Period without offsetting against financial income.

2.21. Corporate income tax

a) Current corporate income tax expenses

Current corporate income tax expenses are determined based on taxable income during the period and current corporate income tax rate.

b) Current corporate income tax rate

The fiscal Period ended as at 30 June 2026, the Company applies the corporate income tax rate of 20% for the operating activities which has taxable income.

2.22. Related Parties

The parties are regarded as related parties if that party has the ability to control or significantly influence the other party in making decisions about the financial policies and activities. The Company's related parties include:

- ▶ Companies, directly or indirectly through one or more intermediaries, having control over the Company or being under the control of the Company, or being under common control with the Company, including the Company's parent, subsidiaries and associates;
- ▶ Individuals, directly or indirectly, holding voting power of the Company that have a significant influence on the Company, key management personnel including directors and employees of the Company, the close family members of these individuals;
- ▶ Enterprises that the above-mentioned individuals directly or indirectly hold an important part of the voting power or have significant influence on these enterprises.

In considering the relationship of related parties to serve for the preparation and presentation of Separate Financial Statements, the Company should consider the nature of the relationship rather than the legal form of the relationship.
